The Sanctuary Lake Maintenance Easement (LME) Planting Exhibit

September 18, 2018

The following information is a breakdown of the vegetation planted with in the Lake Maintenance Easement (LME) surrounding the Sanctuary lake. Two site visits were performed, the first on August 17th, 2018 and the second on September 14th, 2018, to document the quantity of vegetation planted within the LME. Focus was put on rough quantities and property boundaries. It shall be noted that due to severe lake bank erosion, identifying the LME boundary was done by identifying the rear property line of each lot. These lots were not surveyed prior to this tree analysis and thus approximate lot boundaries were identified.

Lot 57:

- Three Christmas palms
- One Poinciana
- Several Cardboard Cycads
- Bed of Bromeliads within LME
- Two Sabal palms

Lot 58:

- No plantings within the LME
